PRESS RELEASE

GRANT WRITING ASSISTANCE PROGRAM

Grants are a great source of funding for solar projects providing that your organization or business structure qualifies for it. We at SolNV know the complications involved with Grants and have developed a Grant Writing Program. If your agency or organization will qualify, we will assist in the writing and submitting of your grant to the appropriate Government Agency.

Typical Fees:

Grants under \$150,000:	\$1,800.00
Grants Over \$150,000:	\$3,200.00 and up.

The typical process time will take approximately 30-40 days for most grant writing. We guarantee to write a proposal that contains all the necessary components that will clearly establish your purpose and need for funding.
